OHIO SOLONS TO FIX PRICES

Special Session to Convene Next Monday

DAVIS WARNS OPERATORS

Will Enforce Law Against Profiteering, He Says

COLUMBUS — (Associated Press) — Governor Davis today announced that he would summon the state legislature into extraordinary session Monday, September 11, for the direct purpose of enacting legislation that will make it "possible to invoke the state's full powers in assuring the public a sufficient supply of fuel at a fair price."

Announcement of the governor's contemplated action followed refusal last week of coal operators to agree to a schedule of prices for coal put forward by the state, they demanding a minimum of \$5.50 per ton at the mines. The state proposed prices ranging from \$3.75 to \$4.80 a ton.

BILLS TO BE READY

Before announcing his intention to summon the legislature into special session, the chief executive had obtained from State Attorney General Dyer an opinion holding that the state now is without statutory authority to fix prices of coal, the power is vested in the constitution and that the legislature may enact necessary laws to carry that constitutional authority into effect.

Simultaneous with announcing his intention to summon the legislature, the governor announced that he has formally requested the attorney general to prepare the necessary bills to be offered as soon as the assembly convenes.

"We intend to use every means that is legally available to obviate the threatened taking advantage by some coal interests of the people of the state, by charging them 'all the market will bear' for their fuel needs," Governor Davis' statement said.

WILL ENFORCE LAW

The chief executive said, however, that he hoped the mere enactment of laws to fix prices would have the effect on coal operators of causing them to charge fair prices, but that should it not, then he would enforce the laws to their fullest extent. "I have good reason to believe that some producers have never intended to exact more than a fair price," the governor said. Governor Davis also declared that if the exigency arises, that he would use the police powers of the state to seize coal in transit within the state and to divert it to the use of the people of the state "should there be an attempt to discriminate against the public as a result of the measures to be called into action to compel a fair price." He asserted however that he hoped the use of such extreme powers would be unnecessary.

It is expected that the official call for the legislature to meet in special session will be sent out late today.

DOG BITES CHILD

On Way to Buy School Books When Attacked

The sharp fangs of a dog, which sunk into the tender skin of six-year-old Gretchen Glover, daughter of Mr. and Mrs. George T. Glover, 1218 Lakewood-ave Tuesday, as the little girl prepared to purchase her first school books, may delay her introduction to the education ahead of her.

Police are seeking the dog, to enable a physician to determine whether or not it is affected with rabies.

Little Gretchen was bitten as she approached the Webb Book Store, 141 W. Spring-st, her father reported Tuesday. Crowds of little children gathered around, were terrified by the cries from the child as the teeth of the dog scratched her flesh.

SCIENCE WILL ATTEMPT TO SAVE LIFE OF MAN

Every possible resource known to science will be resorted to here in the effort to fan into flame the dying spark of life in H. G. Barnes, 22-year-old Davenport, Iowa youth, injured two weeks ago in an auto accident.

He was brought here by his father-in-law, Dr. F. D. Clark, Masonic building, and taken to the city hospital.

Some injury impaired his mental faculties and Barnes has been in an unconscious state since the accident. It is believed he is suffering from concussion of the brain.

Barnes suffered other injuries, but none except the one to his head is regarded as serious.

WET, DRY ISSUE IS UP TODAY

Lines Drawn on Question in Wisconsin Primary

ANTIS OPPOSE LAFOLLETTE

Senator Attacks Administration in Seeking Renomination

MILWAUKEE. — (Associated Press) — Returns of today's primary election in Wisconsin will be eagerly scanned by "wet" and "dry" organizations of the state since candidates representing these different forces are seeking nominations for legislative offices.

The Wisconsin Anti-Saloon League is advocating the nomination of W. A. Canfield for United States senator over Senator R. M. LaFollette and endorsement of Attorney General William J. Morgan over Governor John J. Blaine for the gubernatorial honors.

While the platform of Senator LaFollette and Governor Blaine made no mention of prohibition, these candidates are receiving the support of the Association Opposed to Prohibition.

ADMINISTRATION HIT

Senator LaFollette in his campaign gave much time in defense of his war record in the United States senate. He attacked the Harding administration and its acts.

The Fordney-McCumber tariff bill was pronounced by him "the greatest robbery of any tariff ever attempted."

Mrs. Jessie J. Hooper, representing the Democratic party in seeking primary endorsement for the United States senatorial nomination, has stressed world peace, declaring for the league of nations or any other form of world peace.

RESIGNS TO SPEAK HIS MIND

Clark to Campaign for U. S. Entry in League

WASHINGTON — (United Press) — Desire to be able to speak his mind freely on the league of nations, was Justice John H. Clark's motive in resigning from the United States supreme court, according to his friends today.

Justice Clark is expected to enter actively into a campaign on behalf of American membership in the league. In this connection, it is considered significant his resignation came at a time when James M. Cox, Democratic presidential candidate in 1920, was enroute home from Europe on the liner Paris with a fresh supply of arguments in favor of America entering the league.

When William H. Taft became chief justice the word went out that the "muzzle" was to be taken off the supreme court. However, when Justice Clark tested this policy by making a speech in Cleveland, advocating cancellation of war debts, he was vigorously criticized in the senate and elsewhere.

Since then, no member of the supreme court has made a speech on any controversial public question.

WAR IS BEGUN ON INJUNCTION

Secret Meeting Protests U. S. Action in Rail Walkout

ARRESTS ARE COMMENCED

Leaders Taken on Charge of Violating Court Order

NEW YORK — (United Press) — Movement for a general strike of the American Federation of Labor, in protest against the Daugherty injunction, was started here today.

Samuel Compers, president of the federation, will be asked in a resolution to be presented at a special meeting of the trades and labor council tonight to call a convention in New York to consider a general walkout, it became known.

The resolution was drawn up at a secret meeting of labor leaders, held here yesterday. The New York council is the largest and most powerful in the United States, having a membership of 800,000 workers.

Pledges of various locals of unions here to aid the striking shop workers and to fight the injunction granted in Chicago to Daugherty which prohibits leaders from conducting the strike, total thousands of dollars. It was predicted that a \$100,000 war chest will be raised this week.

It was understood that process servers were here, seeking strike leaders to serve notices of injunction on them. As far as could be ascertained, none of the leaders could be located.

Eviction of the injunction by turning over the union leaders not connected with the shopmen's union, the conduct of the strike was suggested at the secret councils held.

It was pointed out by leaders that in this case Daugherty would have to set out injunction against so many that he would be presented with an almost hopeless task.

LEADERS ARRESTED

CHICAGO — (Associated Press) — With the government's rail strike injunction universally condemned by union leaders in Labor Day messages yesterday, impending federal court action in cases growing out of arrests for alleged violations of the injunction, occupied the foreground of the picture of the nation's industrial situation today.

Despite the general quietude of Labor Day the holiday period was not without its contributions to the growing list of outbreaks incident to the railway shopmen's strike.

At Ardmore, Okla., inspectors were investigating what Santa Fe railroad officials said was an attempt to wreck a passenger train bound from Kansas City to Galveston. The engineer reported that he found an open switch with the signal lights broken off.

Nineteen freight cars were burned in the yards of the Great Northern system at Great Falls, Mont. Eight hundred cars were endangered by the blaze which broke out simultaneously in five different places.

Arrests included those of John A. Steeklein, acting chairman of the shop crafts federation at Needles, Calif., and Jacob Cohen, editor and publisher of the Labor Review at Memphis, Tenn., charged with violating federal injunctions.

Miss Jennette Rankin of Montana, the first woman to sit in congress, declared in a speech at Peoria, Ill., that the wives of union men should participate with their husbands in the conduct of union affairs.

EDITH EXPENSION TALKED

WASHINGTON — (United Press) — Extension of the Daugherty injunction to bring within its scope all persons who give aid in any form to the 400,000 striking railroad shopmen was discussed by President Harding and his cabinet today.

Broadening of the injunction was declared by one cabinet member necessary to silence leaders of non-striking unions who have continued to send public and private messages of support and sympathy to the shopmen's leaders ever since the injunction was issued.

Sharp differences of opinion prevail among cabinet members as to the extent to which the restrictive powers of the injunction should be increased. Two members were understood to look with disfavor on extension.

All were agreed, including the president, that caution should be necessary to avoid undue interference with the rights of free speech.

\$1,000,000 CONTRACT REFUSED BY "POOR LITTLE RICH GIRL"

CHICAGO. — (Associated Press) — Nawanna Micor, who in everyday life is Miss Muriel McCormick, has refused a \$1,000,000 contract to appear in a motion picture, according to close friends.

Miss McCormick refused to make any comment on her plans today, being busy moving from the home of her father, Harold P. McCormick, to an attic studio, three flights up, where she will pursue her operative studies.

The apartment she will occupy is just across the street from the home of her mother, Mrs. Edith Rockefeller McCormick, daughter of John D. Rockefeller, from whom she has been estranged since the divorce was obtained by Mrs. McCormick upon charges of desertion. Miss McCormick who is known to her Gold Coast friends as "the poor little rich girl," has expressed her desire to become a grand opera star and to achieve success thru her own efforts alone and without the assistance of her family's wealth.

BISHOP FALLOWS DIES IN CHICAGO

Head of Reformed Episcopal Church Ends Notable Career

SOLDIER, DIVINE, AUTHOR

Inaugurated First Law School in Illinois

CHICAGO. — (Associated Press) — Bishop Samuel Fallow, presiding bishop of the Reformed Episcopal church, famous as preacher, soldier, author and lecturer, died at 4:30 o'clock this morning at his residence after an illness of less than a month.

Bishop Fallow's death, a shock to the religious world, especially, but a cause of general sorrow, was unexpected in spite of his advanced age. He was approaching his eighty-seventh birthday.

The bishop fell ill of pneumonia last winter and to that was attributed the beginning of his fatal illness. Last spring he went to Lower California and he was believed to have escaped further ravages of the disease.

He did not return to Chicago until August 14, hopeful of regaining his old vigor and resuming his varied activities which had made him a widely known national figure.

The long overland trip, however, drained his strength, and led to his death.

Samuel Fallow was that curious complex, a soldier, a divine and an author. With equal spirit he could exhort his parishioners to duty or lead his regiment in battle; and equally he could summon an all-conquering passion for that most pedantic of tasks, the editing of a dictionary.

He was tall, straight and spare of body, his face was ruddy with color of vigorous life and he had a splendid crop of silver hair, fascinating deep blue eyes and hands sinewy and extremely expressive in gesture.

Samuel Fallow was born December 13, 1835, at Pendleton, near Manchester, England. His parents migrated to Wisconsin in 1848 to engage in farming. Thus Samuel Fallow grew up a farmer lad near Madison. His first schooling was at Astoria, Wis., and then at Lawrenceville, Wis., at Appleton. There he first began to preach.

In 1859, upon graduation at Wisconsin he was appointed vice-president of Galesville, Wis., "university."

When the civil war began he helped to organize the 32nd regiment of college students and faculty men. Later he was made colonel of the 49th regiment and for "meritorious service" he was brevetted brigadier-general of volunteers.

MADE STATE OFFICIAL

Upon his return from the war, Colonel Fallow was appointed Superintendent of Public Instruction for the state of Wisconsin; for this office he was twice later elected. Following he went as president to Illinois Wesleyan University at Bloomington.

Dr. Wesleyan, President Fallow inaugurated the first law school connected with any college or university in Illinois. At Wesleyan, too, he instituted that system of long distance learning known today as "university extension."

1875 Bishop Fallow became rector of St. Paul's Reformed Episcopal church of Chicago and continued so for the succeeding years until the time of his death. Simultaneous with his assumption of the rectorate, he assumed the title, "archbishop of the west," and soon thereafter he became presiding bishop of the entire church both in the United States and Canada.

BIG INCREASE IN LIMA SCHOOLS

Enrollment Will Exceed 6,900, Officials Predict

MUCH CONGESTION RESULTS

Central Junior High Leads in General Gain

Enrollment in the Lima public schools Tuesday for the 1922-23 term showed an increase of 259 over the first day's attendance of 6,543 in 1921. The figures were compiled at 10 a. m. and it was believed that by the time school was dismissed for the day an additional 100 would be enrolled, making a total of over 6,900.

The largest gain was made at Central Junior High school, where 155 more pupils answered the school bell than at the same time last term. Superintendent J. E. Collins declared careful organization will be necessary to relieve the resultant congestion.

CONGESTION RESULTS

Seated rooms in the Junior High building are still used for kindergartens and as a result, Collins says, there were 20 sections of groups of juniors organized Tuesday morning, against 16 formerly. The overflow will be accommodated at the Franklin schools.

This increased enrollment at Central Junior High school is accounted for in part by bringing in this year 63 seventh year students from the Garfield and Horace Mann buildings who were housed there last term to relieve congestion. The actual gain of 92, however, still gives the junior department the largest gain.

The gain at Central Senior High school was reported at 55 and at South High, 87.

Lowell and Lincoln schools showed the greatest gain in the elementary schools, according to Collins, to whom it was apparent that a large number of pupils must be transferred to the Horace Mann building. Transfer from Washington to McKinley is also necessary, he said.

NEW ENROLLMENT

The enrollment follows:
Central Senior High School . . . 869
Central Junior High School . . . 667
South High School . . . 981
Franklin School . . . 211
Euclid School . . . 175

Lincoln School . . . 691
Lowell School . . . 367

46 MEN STILL IN WRECKED MINE

Entombed California Workers May Be Reached Tomorrow

JACKSON, Calif. — (Associated Press) — Excavators struggling to release the 46 men entombed in the Argonaut gold mine, today were penetrating what is known as the "old shaft" of the adjoining Kennedy gold mine. Working on a 2,600 foot level, this "old shaft," 250 feet long, leads to the 75 feet of quartz which separates them from the men who were imprisoned by the Argonaut fire August 27.

Listing of the materials carried into the Argonaut by the 46 miners, revealed today that it would be entirely possible for them to have escaped the five explosions which worked in the Kennedy mine reported hearing when the roar of their own blasts had died away. It was the conviction of many of the rescue workers that at least some of the entombed men were alive and would be saved.

Miners on the job believe that the muck in the "old shaft" can be cleared out today and that the remaining 75 feet of quartz can be cut thru by Wednesday, a day earlier than it was expected the buried 46 could be reached.

HARRY CLARK SOUGHT;

SISTER DEAD AT HOME

Lima police are searching the city Tuesday, in an effort to locate Harry Clark, 17, Roundhead, who is reported to have run away from his home several days ago.

They have a sad message to give him — message which, they believe, will turn him home again.

Clark's sister is dead, police were told by the Roundhead telephone operator.

WHITES AND BLACKS CLASH AT CHICAGO

CHICAGO. — Scores of Labor Day picketers were recovering today from injuries received in a clash between whites and colored at Lincoln Park yesterday.

More than 4,000 picketers were called out after Frank Lewis, negro, was alleged to have made an insulting remark to a white girl.

The riot started when a ball from a baseball game being played by colored picketers struck a girl member of the John Benjamin party. The girl remonstrated and the negro made a remark.

Benjamin jumped at the negro, who slashed him across the face with a knife.

More than 4,000 picketers joined in the chase and only the arrival of riot squads prevented further bloodshed.

PENCIL COMPANY TO COME HERE

Lima Men Assist in Financing Manufacturing Concern

QUARTERS BEING SOUGHT

Force of Skilled Workmen to Accompany Plant

That the Stull-Boyle Co., manufacturers of "Perfect Point" mechanical pencils and pens, will locate in Lima is practically assured, it was announced at the chamber of commerce Tuesday.

For more than a month officials of the company have been in the city investigating various financial interests in the industry and obtaining subscriptions for stock. J. Kenneth Johnson, manager of the chamber, said.

As soon as the initial plan is subscribed the officials will announce when the company will remove its plant to Lima and where it will be located, it was said.

This company has been located at Fremont, Ohio, and Atleboro, Mass., the factory being at Atleboro and the main offices at Fremont. It is desired to locate both the factory and the offices in Lima.

A special patented pencil will be manufactured here and between 20 and 30 workmen given employment in the beginning. Orders now on hand will keep the plant operating at capacity and make further expansion necessary, it is believed.

As this is a product which requires experienced jewelry workmen it will be that a number of high class workmen will be brought to Lima and will add to the already wide diversification of manufacturers here now.

LIMA CONCERN

It is planned to make the concern an essentially Lima company and the announcement that several local financiers have been added to the board of directors is expected later in the week.

Several locations for the plant have been under consideration by officials of the company but none has been selected as yet, it was stated. They are being aided by the chamber of commerce in their search for suitable quarters.

For the present a building or portion of a building will be leased and all capital turned toward the manufacture and sale of the pencils and pens. An extensive advertising project of national scope is also being planned, it is understood.

Lima was selected as the desirable site for the plant because of its location and shipping facilities and its ability to supply and care for workmen to be employed, it was stated.

Definite information as to the location of the plant, personnel of the board of directors and when the plant will be moved will be made shortly, Johnson said.

UP TO SOLICITOR

All that is standing in the way of the voters of Lima and the approval or disapproval of Daylight Savings time is the preparation of an ordinance by the city solicitor, Paul Landis.

If Landis is able to have the legislation ready for the action of the city commission Tuesday night it will be approved and the voters permitted to decide what they want.

A. Bingham, city manager, said. An ordinance requesting the city board of elections to place the question on the ballot this fall had not been received at the city hall Tuesday and as far as city officials had been informed had not been prepared.

According to the law the action must be taken 60 days before the election of the question will not be placed on the ballot.

SCOT DISMISSED

Because bankruptcy proceedings in federal court have superseded action in common pleas court, a suit to dissolve a partnership existing between C. A. Beale and Charles J. Best, of Delphos, was dismissed by Judge Fred C. Becker Tuesday afternoon.

MACHINE DITCHED NEAR THIS CITY

Two Girls and Man in City Hospital as Result

THREE FROM BELLEFONTAINE

Crowded From Road, Driver of Car Declares

Two girls and a man lie seriously injured at city hospital, having miraculously escaped death when a large touring car in which they were riding, swerved off the road, turning on its side, and caught fire, shortly before midnight last night on the Spencerville-rd, four miles from Lima.

A third man escaped with minor bruises.

The injured are: Gladys Piper, 17, Lakeview, fractured leg and possible internal injuries.

Hazel Hemminger, 20, Bellefontaine, sprained back and internal injuries.

Tom Orphan, 21, Bellefontaine, ruptured bowels, severe bruises and cuts.

Doris Piper, 20, brother of Gladys' minor cuts.

AUTO DRIVER BLAMED

Blinding lights from a fast moving automobile coming from the opposite direction, and refusal on the part of the driver of that machine to give way are blamed by Orphan, the driver of the wrecked car, for the accident.

Orphan was travelling not more than 35 miles an hour, when the accident occurred, he declared Tuesday morning. He said it was necessary for him to throw on all brakes in order to avoid sideswiping the oncoming machine.

Almost instantaneously with the careening of the car, it burst into flames, Orphan said. The driver of the other machine, hearing the dull thud of the car as it slid over on its side, and seeing the blaze arise from the machine, put on power and sped away without slowing down.

Orphan declared.

After being injured, members of the party exerted every effort to crawl from the overturned car and were successful, the driver narrated, with himself helping the Piper girl, who sat next to him, from the blazing wreckage while the Piper man aided the Hemminger. They escaped just in time to prevent being burned to death.

ADDED BY FACTOR

The four made their way to a nearby farm house, where first aid was given them, and an ambulance was called. All were then rushed to city hospital in Lima for immediate medical attention.

Orphan declared that he had started by himself, from Bellefontaine, early Monday evening, to stop at Lakeview where he was to meet the three other members of his party, and bring them to Lima. The two girls had been spending the day at Lakeview, he said, before continuing their journey here where they expected to get work in one of the Lima factories.

The party left Lakeview about 8 p. m., driving to this city. They passed thru Waynesburg, taking the long route here.

Constant care is being given the three injured members of the party.

MINERS VOTE ON PEACE TOMORROW

Anthracite Compromise to Come Before Convention

PHILADELPHIA. — (Associated Press) — Anthracite union leaders who have not already left Philadelphia were to go to Wilkes-Barre today to prepare for the convention of delegates from the three districts of United Mine Workers in the hard coal regions. The convention which will open tomorrow afternoon, will vote upon ratification of the compromise proposals of United States Senators Pepper and Keck of Pennsylvania for ending the labor struggle which has kept the mines idle for more than five months. The plan, which calls for operation of the mines at the wage scale in effect when the suspension began on August 31 of next year already has been approved by the senate committee of the union.

Reports from the anthracite fields indicate that the vote will be in favor of ratification. In that event mining is expected to be resumed by next Monday.

Nearly all the more important names have been supplied with empty cars, so that the loading of coal may be begun as soon as possible after the suspension is formally ended.

Secretary of Commerce Hoover was expected here either today or tomorrow to confer with operators and miners on the distribution and price control of anthracite supply.

THOUSANDS HERE FOR PICNIC

Joint City-County Fete Declared Big Success

MAY BE ANNUAL AFFAIR

Final Committee Meeting to be Held Tonight

Barriers, both real and imagined, between city and country folk were swept aside Monday at the huge City-County picnic at McBeth park.

All day long a steady procession of motor vehicles poured in and out of the park. At one time 2,000 automobiles were parked within the grounds and the crowd was estimated between 8,000 and 10,000 persons.

Representatives of the Allen-co Farm Bureau and the Lima Chamber of Commerce, under whose direction the picnic was staged, were elected by the feeling of goodwill which was evident during the day.

So satisfactory was the gathering that it is possible that the general committee will be called together again in a month or two to plan the next winter gathering for the city and country folk. Glen Webb, president of the chamber of commerce, said Tuesday.

Following the picnic dinner, the crowd was welcomed by Mayor Harold Cunningham in behalf of the city of Lima. He expressed the belief that the cooperation of the past would be continued in the future.

He was followed by O. E. Bradfute, president of the Ohio Farm Bureau Federation, who promised the city folk that the farmer is ready to do all in his power to bring the producer and the consumer closer together.

MANY IN SING

Nearly 1,000 persons took part in the community singing following the talks. They were led by Mark Evans and a specially trained chorus recruited from the various choirs in the county. The chorus sang several selections.

Band concerts by the Gomer and the Lima city bands kept the crowd happy and moving during the day. There were also a number of concessions and dancing to attract the young folks and many of the older pleasure-seekers.

Athletic contests of various kinds drew the attention of hundreds. Interest centered on the foot race, won by H. Cleveland, and the horseshoe pitching contest, won by Jess Shaw, of Uniole.

Due to the voluntary contributions and the receipts from various concessions the picnic was a financial success, the committee announced Tuesday.

A final meeting of the committee will be held at the chamber of commerce Tuesday night to hear reports from the various committees and to clean up the various obligations.

Arrangements will be started immediately to make the picnic an annual affair and to add other activities during the winter and summer months, it was announced.

INTEREST CENTERS IN FINDING LITTLE DOG

A little black dog, with long hair and brown spots, is being persistently sought that it may be watched carefully the next few days, in fear of rabies. To whom the dog belongs no one learned when a school girl of Mr. and Mrs. George Glover was bitten at the Webb book store Tuesday.

A small boy had the dog leading it with a chain. When the boy left the book store he had not been identified. Police seek the information with the idea of prevention, but no ill-will against the canine which is not thought to have been vicious. Owner of the dog is asked to communicate tonight with the Board of Health.

W. E. Neal, of 207 N. West-st, resigned his position at Hoover-Roush and left Tuesday noon for Florida in the hope of improving his health.

Roofing of the new St. Johns Catholic Church, S. Main-st, before winter sets in is the aim of the builders. Laying of face brick is under way and considerable progress has been made on the rough work for the tower.

PANAMA TREATY'S END ASKED

New Pact Recommended to Congress by Harding

WASHINGTON — (Associated Press)—Abrogation of the present treaty arrangement with Panama which he said was intended to operate only during the construction of the Panama canal, and the negotiation of a new treaty with that government was recommended to congress today by President Harding.

With a communication to Speaker Gillett, setting forth his views and declaring that the change was desired by the government of Panama, the president transmitted a letter from Acting Secretary Phillips of the State Department, setting forth that the agreement, formulated by Secretary of War Taft, was to serve as a modus operandi during the period of canal construction.

Later it was ratified in the Panama canal act. The agreement, Mr. Phillips said, no longer provides "an adequate basis for adjustment of questions arising out of the relations between the canal zone authorities and the government of Panama and it is the opinion of the war department also, that the agreement should be replaced by a more permanent arrangement."

ELLIOT NOT GUILTY. JUDGE JACKSON HOLDS

Dr. R. A. Elliot, 40, 420 S. Chestnut, charged with driving an automobile while intoxicated, was found not guilty, by a jury, in police court Tuesday.

The case was heard before Judge Jackson.

Elliot was arrested by police a week ago when a machine he was driving collided with one driven by Rev. H. D. Hutchins, Liberty Center, at Elm and Pierce-sts.

WARMER WEATHER IS ON THE WAY

Oil up the old electric fan! It's going to get warmer.

That's what the weather man says and at the same time he predicts fair weather.

Lima and vicinity have suffered more during the last few days from the heat than at any time during the summer. The mercury has been hanging around the 90-mark and the rains and storms of the last few days brought very little relief.

The official thermometer at the Solar refinery registered 88 degrees at the highest point reached Tuesday. A light breeze helped some.

INDEPENDENT CANDIDATES MUST FILE WEDNESDAY

Wednesday is the final day allowed by law for filing independent petitions with the board of elections, if the names of candidates are to go on the ticket.

Neither Raleigh J. Dixon, nor John Conrad, the two free-lance starters in the race had filed their petitions at noon Tuesday.

Both of them are in the race, however, it was learned and declare they will file before the limit expires.

SICKLY CHILDREN NEED A TONIC

Nerv-Worth Tastes Good, Aids Digestion, Regulates the Bowels and Tones Up.

Statistics have shown a large percentage of school children suffer from malnutrition and general debility and this lays in their studies, are listless and inactive. Under such conditions the question arises, "Has Your Child a Fair Chance?" Look at our children after school tonight. Is there a haggard look—all faces dull and sparkling with pep and healthy vigor? If there is a lot of excess of good health, there is need of a reliable tonic and system regulator, and there is none better than the famous Nerv-Worth. It tastes good—all children like it. It aids digestion, sweetens the stomach, has a mild but very certain action on the bowels, does not purge but gives healthy normal and regular action. It is just as good for old folks as for children and just as good for big strong men as for delicate women. It is a reliable family remedy for nearly all ills coming from disordered stomachs and bowels and Nerv-Worth is the greatest remedy in the world for indigestion and constipation. Most druggists sell it at one dollar a bottle. It is always for sale at drug stores in this city and every druggist is authorized to give the money back if the first bottle does not show encouraging results.

Nerv-Worth is sold and recommended by Hanters, 2 Closes, Lima; C. A. Young, Van Wert; Gussens Drug Store, Lima; Drug Store, Keaton; Powell's Pharmacy, Bellefontaine; Miners', Defiance; King & Stallkamp, Delphos. Adv.

WOMAN TO LEARN HER FATE SOON

Higher Courts to Pass on Atlanta
Murder Case

WIFE SENTENCED TO HANG

Convicted by Jury of Shooting
Husband to Death

ATLANTA, Ga. — (Associated Press).—The case of Mrs. Cora Lou Vinson, sentenced to be hanged for the fatal shooting of her husband, W. D. Vinson, in his office, March 30, 1922, which was appealed to higher tribunals is expected to be decided within a few days.

Vinson, an Atlanta physician, received one shot in his body as he sat at his office desk, and, after he had fallen to the floor with his face toward, his wife shot him three more times. He died immediately.

"He told me I was worn out and that he wanted a young and pretty woman," Mrs. Vinson testified at her trial. She did not intend to kill him, she said. "I went to his office to talk over some matters with him, but he made me so mad I just couldn't keep from shooting him."

PLEA OF INSANITY

The fatal shots were fired from a revolver which Mrs. Vinson said was given her by Louis Vinson, a son of Dr. Vinson by a former marriage, for her protection.

Mrs. Vinson, a frail woman of 43, at the time of the shooting, had been separated from Dr. Vinson, her second husband, for sometime. "He spurned my love," she said, charging him with unfaithfulness.

Following the shooting, counsel for the second defense filed a special plea of insanity in Mrs. Vinson's behalf, alleging that a disordered mental condition was responsible for the killing. After a hearing by a jury in Ordinary's Court, however, she was pronounced sane and placed on trial for her life. She was convicted on June 3 and sentenced to be hanged on July 28, the jury returning the verdict without recommendation for mercy after deliberating one hour and forty-five minutes.

Appeals to higher tribunals held up final disposition of the case.

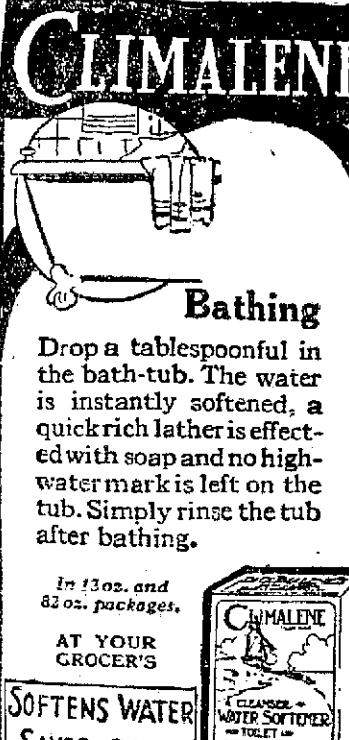

Mrs. Vinson heard the verdict read and the sentence passed without any show of emotion. "I don't believe they will hang me she said the day afterward, 'for what any woman would have done under the circumstances.'"

WARRANT NAMES "OTHER MAN"

Professor Accuses Merchant as
Father of Wife's Child

WILL BE AIRED IN COURT

Case Comes up at South Bend
Late Today

SOUTH BEND, Ind., (Associated Press).—Professor John T. Tiernan, instructor in the law department at the University of Notre Dame, was ready today to present proof of his charge that Harry Poulin, local clothing merchant, is the father of Mrs. Tiernan's infant son, born last November. Professor Tiernan obtained a warrant for the merchant's arrest last Saturday and a hearing has been arranged for late this afternoon in a justice of the peace court. Whether Poulin will waive a hearing in this court apparently had not been determined early today.

While Professor Tiernan declared he was ready to substantiate his charges, Poulin did not reveal what steps he contemplated.

Couple Separated

Professor Tiernan and his wife having lived together since the birth of the child have now effected a separation, agreement by which he obtains custody of their two daughters, five and three years old. They will be sent to Chicago to reside with relatives pending disposition of the case against Poulin. Mrs. Tiernan will remain here, however, until the trial. Then she will go to the home of her mother who resides in a small Michigan town.

That the professor's charges are the aftermath of a blackmail plot which failed is the contention of Poulin, while the instructor declares that his fight "is for the integrity and morality of the home."

CHILD TO BE IN COURT

SOUTH BEND, Ind., (United Press).—There will be a high chair in court when John P. Tiernan, professor of law at Notre Dame University, appears to accuse Harry Poulin, wealthy clothing merchant, of being the father of his wife's child.

The high chair will hold exhibit "A," which will be the unnamed, six-month-old son of Mrs. Tiernan, whose paternity is questioned.

"It is sad, very sad, that we must introduce the unfortunate child as formal evidence," Tiernan declared today. "But I shall have him there in court during every session."

Tiernan plans to conduct the examination of Poulin himself.

"I will cross-examine this man who used to be my best friend," Tiernan said.

"I know him like a book," Poulin has employed a corps of legal talent to defend him. Mrs. Poulin will stand behind her husband.

Poulin will introduce a double defense. He claims that the professor is not only mentally deranged, but that the entire case is one of "extortion and blackmail."

HUSBAND'S STORY
Tiernan stated today that for eight months after the baby was born, he kept the affair a secret and was prepared to forget the matter in order to prevent a scandal.

"And then Poulin sighted my wife on the street," he said. "It made her furious and she demanded that I act."

"No real man would let another man ruin his home without revenge. Be a man. Make him pay," she demanded.

"I had no other course open to me. I had appealed to Poulin several times to recognize the child and arrange for its support. I will now fight it out in court."

"The story of my wife's temptation is the old, old story of a country girl yielding to the blandishments of a charming, city dandy."

"My wife would leave her home and the children two or three times a week and meet Poulin."

"My suspicions were never aroused until last January."

"Mrs. Poulin, however, learned of the affair last August. She went to Chicago on a visit."

"In the week she was absent, my wife told me she visited Poulin's home three times. Poulin provided liquor."

"They made a mistake, however, and played the phonograph. The

neighbors knew Mrs. Poulin was away and investigated and recognized my wife.

"Mrs. Poulin, when she returned, was told and wrung a confession from her husband. She then went to see my wife and made her promise absolute secrecy."

M'CLURE IS HELD

Bound Over to Grand Jury on
Gun Charge

Bond of \$5,000 was required of Guy McClure, 26, Columbus Grove, who attempted suicide here three weeks ago, when he pleaded guilty to a charge of carrying concealed weapons, Tuesday in police court. He was held to the grand jury.

McClure was arrested Saturday upon complaint of Eunice Triunfo, director of the Alliance Child Welfare association after she had informed police that McClure had threatened the life of his wife, while they were in conference in her office.

A revolver was found in his possession by police who placed him under arrest at the Western Ohio hotel. He was in company with his wife and was preparing to go to Bluffton for his children, he told officers.

A divorce suit filed by Mrs. McClure is pending in common pleas court at the present.

NEW DISARMING PLAN LAUNCHED

Program to be Presented at Na-
tion League Assembly

WIDENS WASHINGTON TREATY

Military Units Fixed in Proposal
at Geneva

(BY HENRY WOOD)
GENEVA — (United Press).—The league of nations today planned to launch a practical world-wide disarmament program.

So strong is the disarmament sentiment among the nations attending the meeting here that the session will be considered a second arms parity, which will probably enlarge in scope the work of the Washington conference.

The disarmament program will be presented to the league by Lord Robert Cecil and will include a world-wide defensive alliance and non-aggression pact. This, it is insisted by the delegates, will give each country the consciousness of security necessary to permit the reduction of armament.

MILITARY UNITS
The plan fixes the military unit at 30,000 and then assigns to each nation the number of units it may maintain. When units are assigned the needs of defense and geographical position will be taken into consideration. For example, under the proposed plan, Portugal would be allowed an army of one unit of 30,000 men and France six units, or 180,000 men.

The limitation of armament budgets, the suppression of the use of gas, the control of the traffic in arms and other kindred material is to be considered under the disarmament. One of the first acts of the league was to ask England, Australia and New Zealand for additional information concerning the island of Mauna, a former German possession which has been mandated to England.

The league, in doing this, wants to find whether or not the spirit of the mandate has been violated.

It was discovered that the island is a solid bed of phosphate, enough to supply the needs of the world for 200 years. This was not generally known at the time England was granted the mandate.

Secretary of State Hughes, after receiving knowledge of the phosphate deposit, put in a formal claim for the protection of American interests.

FORECLOSURE ASKED
Action to foreclose mortgages held on real estate to secure payment of notes in the sum of \$3,595.88 was filed in common pleas court Tuesday by Edward C. Baechler against C. D. Burkholder, Catherine Burkholder and the Citizens Loan and Building Co.

GILL FINED \$500.
Robert Gill, 55, 185 S. Jackson-st., who was arrested Saturday on a charge of possessing illicit liquor, pleaded guilty Tuesday before Judge Jackson in criminal court and was fined \$500.

**SONS WILL ADMINISTER

Jesse H. Vance, Beaverdam, and John W. Vance, Lima, sons, were named as co-administrators to settle the estate. Vance is survived by eight children.

**WEST POINT CORPORAL
IS SURPRISED WHEN HE
HUGS CHIEF OF POLICE**

HIGHLAND FALLS, N. Y., (Associated Press).—Corporal Albert Hoff of West Point will take a look under the veil when he offers to escort a girl home in the future if he has learned anything from his experience with Police Chief Fred Christoff here. Christoff told Judge Nelson that he had received complaints from women who said they had been accosted by a soldier on the streets here. Ordinary methods of sleuthing failed and Christoff then donned the latest in girl's clothes and took a stroll.

Hoff came up and asked to escort him home, Christoff told the judge, and continued his advances even after the police official said he was married and had three children.

"After that he put his arm around my waist," said the chief, "and then I hung one on his jaw and brought him in."

The judge held Hoff in \$1,000 bail for trial.

**MOTORISTS' EXCUSE IN
SPEEDING CASE FUTILE**

Excuses finding their origin in the storm of Saturday night failed to alter the penalty administered to a traffic violator by Judge Jackson in criminal court Tuesday.

R. McDorman, Beaverdam, explained a charge of speeding placed against him by declaring it was necessary to drive fast in order to get thru the deep water that filled the streets, but failed to realize any return. Jackson fined him \$10.

C. C. Brown, 1020 S. Central-ave., charged with driving a car without license tags, during the storm, was fined \$5.

SHORT SHAVINGS

Otto Plummer, auto salesman, reports his automobile nearly ran down a jingled pedestrian. "I was forced to pull over to the left hand side to avoid hitting him," says Otto. "He cursed me from A. to Z. A friend who was sitting beside me, said, 'He must be sure because we didn't hit him.'"

Pearl Shaw, phone operator, took the call of a child who was calling a number. The operator asked if that was Rice. The child said, "No, operator. It's my daddy."

Justice of the Peace Ernest Botkin, well known raconteur, camped out on an island in a lake in Michigan for his vacation, declaring he wished to "get away from civilization."

The first night he spent uncomfortably, trying to sleep between blankets on a rock. He was awakened early in the morning by a chug-chugging sound.

"It was the milkman in a motor boat," he says. "He called out to ascertain how much milk I wanted."

F. E. Harman, retired furniture dealer, relates that one of his neighbors attended the Elida pioneer picnic recently.

His wife had packed a nice large basket of catfish, he said, "and all went well until lunch time."

"When I opened the basket all there was in it was empty milk bottles," said the dejected pick-nicker.

"He had taken the wrong basket," explains the sympathetic Mr. Harman.

Hair Often Ruined By Careless W

Soap should be used very, if you want to keep looking its best. Most soaps are harsh and contain alkali. This dries the scalp, the hair brittle, and ruins the hair. The best thing for the scalp is pure and greasy is better than anything else.

Two or three teaspoons of warm water is sufficient to moisten the hair and rub it in. It makes the hair soft, shiny, and free of dandruff. The hair dries and even, and it leaves the hair fine, bright, lustrous, fluffy and manageable.

WHAT DID YOU SEE TODAY?

Send In Observations
And Receive Theatre
Tickets

SIGHTS of interest seemed to be frequent in Lima over Labor Day judging from the number of "observations" mailed into the "What Did You See Today" editor, and herewith are given the names of the four winners in Monday's contest. Each of the four will receive a ticket to New Orpheum theatre, good for any performance.

Get into the habit of noticing people and matters as you go out next time. Things of interest happen all the time if we just took the trouble to remember them. Start today, mail your observations in to the Observation Editor of The Lima News, and watch the paper each day for the list of prize winners.

The first four printed are winners today:

THE HARD WORKING CLERK
O. K. Ferguson, West Cairo, relates an incident while being waited on in a grocery store in his home town. The only clerk was busy, so when the phone rang, the clerk could not answer it immediately. When he did, the phone, being out of sight, he used particular emphasis in calling "Hello," several times. At that moment a customer entered the store, and wishing to be sociable, shouted "Hello." Casting his eyes around, he wondered who spoke to him.

DIFFERENT RELIGIOUS FERVOR
Mrs. F. A. Box 14, Columbus Grove, writes "I was sitting in a restaurant last Sunday and happened to overhear a group of young men at a nearby table. They were discussing religions and churches. One young fellow said, 'I went to Sunday school for twelve weeks before Christmas and these months afterwards they hadn't started a ball team yet, so I quit.'"

WE ALL DO THIS.
Mrs. S. A. Carr, 636 S. Central, sat on her porch watching two young girls walking down the street. Not paying any attention to where they were going, one of them stumbled and fell, forgetting to step up when she came to a curb. A sympathetic gentleman, helping her up, inquired "Young lady, did you fall down?"

Looking up to her gallant rescuer, the girl replied sweetly, "Not at all. I merely got tired of walking and sat down a while to rest." The gentleman is still wondering whether she was being sarcastic.

ALL HAIL THE NEWSIES!
"A new-boy really realized the re-

sponsibility of his profession," writes Mrs. D. E. Burke, 736 S. Metcalf-st. "The carrier on our street was making his rounds the other day, delivering The Lima News. One gentleman on the route called out, 'Well, sonny, what's the good word?' To which the young carrier replied, 'still spreading the news, sir, still spreading the news!'

Following are just a few of the many additional answers received, but to whom no tickets are issued, as the number is limited.

Mrs. A. Lenan, 805 N. Elizabeth, says that she was in a music store, purchasing records, when a lady of foreign birth came in and inquired, "You gotta da Caruso piece?" The clerk replied, smiling, "No, not for the price of 49 cents."

"He is dead," said the lady, "you should make da cheaper."

Clayton Tooler, West Cairo, submits the following:
"In a five and ten cent store the other day, a young girl was carefully examining aluminum cups, of which she asked the price 'Ten cents each,' said the accommodating clerk. 'Thanks?' he replied the youthful shopper, 'mother just wanted to know whether it was cheaper to buy it here or send to Sears-Roebuck for it.'"

DRUG ADDICTS WILL BE HANDED TO U. S. OFFICERS

Drug addicts taken into custody by Lima police will be turned over to federal authorities, without delay, Chief of Police T. A. Lanker announced Tuesday, following an examination of an alleged addict arrested Monday.

The man gave his name as James Moore, 40, Philadelphia. Police say they found a number of hypodermic needles and a large quantity of drugs in his possession.

Both the needles and the drugs were found sewed in the lining of his coat and trousers. A thorough search of every possible hiding place was necessary, police say, before all of the drugs were found.

Lanker conferred with Judge Emmet J. Jackson of Criminal court, concerning Moore after Jackson had deferred arraignment until further investigation could be made. The conference resulted in the decision announced by the chief.

Police had not completed their investigation of Moore's case by 1 o'clock Tuesday.

INFANT DIES
Nicholas, three-months-old son of Mr. and Mrs. Daniel Tessora, 1260 S. Main-st, died Monday at St. Rita's hospital after an illness from summer complaint. Services were conducted Tuesday at 2 p. m. from the residence. Interment was made in Woodlawn cemetery.

DENBY LEAVES FRISCO
SAN FRANCISCO—Edwin Denby, secretary of the navy, who has been in San Francisco for several days, is on his way home from the Orient, today was enroute to Washington.

FLOOD IS PROBED

Sewers Sealed, City Manager
Bingham Declares

Investigation of the flood of water which broke in certain portions Lima last Saturday night has been started by city officials, C. A. Bingham, city manager, said Tuesday.

It has been discovered that certain sewers were sealed up by one or more contractors and as a result were not in a condition to carry away any of the tremendous volume of water which fell, Bingham says.

Members of the board of health are assisting in the investigation and have promised to do everything possible to punish the parties responsible and to prevent a recurrence of the trouble, he said.

It is not certain what legal action can be taken. There are several city ordinances covering the offense and it is believed there are also state laws prohibiting the sealing of sewers, Bingham said.

In other sections of the city the water subsided as soon as the rain ceased, reports of the sewer engineers show. In the south portion, only, was the flood dangerous and this was because of the sealing of the sewer, Bingham said.

NASHVILLE MAN IS HELD BY POLICE AS SUSPECT

Al C. Ray, painter, Nashville, Tenn. permitted his gaze to linger upon the forms of two Lima plainclothesmen just a moment too long, Tuesday.

The officers became suspicious of his prolonged look, and escorted him to headquarters for investigation.

A search of his person and a traveling bag found in his possession a 22 calibre pistol, a quantity of razors, some jewelry and a toy register containing money.

Simultaneously with the arrest, which was made on a charge of suspicion, a report from the Crescent hotel informed police of an attempt to rob their cash drawer.

It was as apprehended by police at the corner of Main and Wayne-sts. They became suspicious of him, they said, when he persisted in eyeing them.

He will be held pending further investigation.

BRITISH POLITICS IN BAD SHAPE

Much Speculation Concerning
Next Premier of Nation

LLOYD GEORGE UNCERTAIN

Present Incumbent and Churchill
Now Best Bets

LONDON — (Special) — Chaos marks the British political situation. All gossip centers about Lloyd George and these chief questions:

When will a general election occur?

Who will be the next Premier?

Barring unforeseen circumstances, and Lloyd George—there will probably be no general election until the summer of 1923.

When it comes it is likely that a coalition will again rule. Neither the Conservative nor the Liberal party will have a clear majority, and it is not thought now—contrary to recent beliefs—that the Labor party will be swept into power, tho it is expected to have from 200 to 250 members in Parliament.

Premier possibilities are confined to these men:

Conservatives: Lord Derby, Earl

Radnor, Bonar Law, Austen Chamberlain, Lord Birkenhead.

Coalition Liberals: Lloyd George, Winston Churchill.

"Wee Free" Liberals: Viscount

Grey, H. H. Asquith.

Labour: Arthur Henderson.

A Labor government would be regarded as nothing short of a revolution, but most Englishmen would

be safe with the reins in the hands of Henderson, who is not in any sense a radical.

In the unlikely event of Labor winning, Henderson would be the certain choice for Premier.

SUPPORT IS SPLIT

The so-called "Wee Free" Liberals are improbable, for their section of the party is badly split between the followers of Grey and Asquith.

Among the Conservatives Faltour probably would be the most likely, but his acceptance of a peerage is considered a sure sign that he never again expects to lead a government.

Chamberlain, the present Tory leader, has too much opposition within his party. Bonar Law would have little chance because of his Ulster sympathies. Birkenhead is flippant—said to have "a brilliant future ahead him." And Lord Derby, the successful war minister and ambassador to France, is too much of a part landlord and would suffer from the British prejudice against a

time Minister being in the House of Lords.

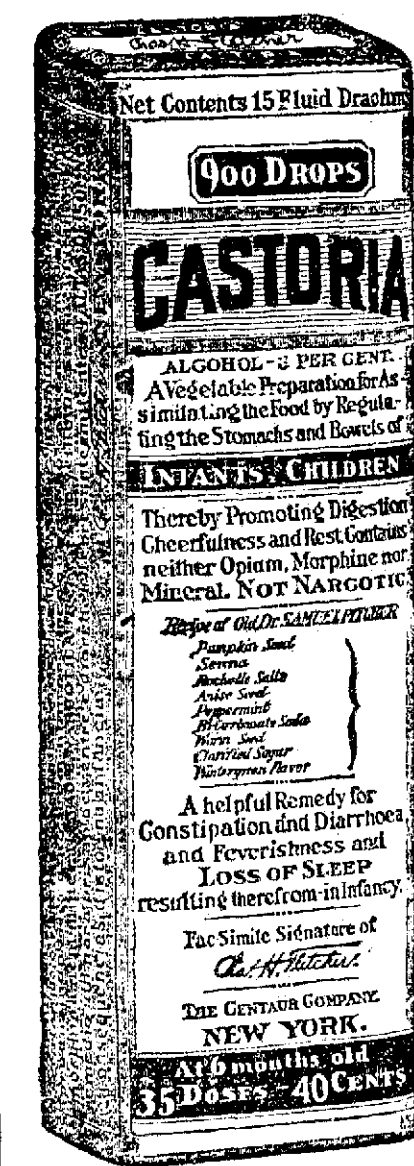

So the "best bets" are narrowed down to Lloyd George and Winston Churchill. Whichever goes in Lloyd George's decision to write a \$500-

The Young Mother.

THE ILLS OF INFANTS AND CHILDREN should be so well known to the youngest of mothers that a reminder or a repetition of the symptoms of illness seems unnecessary, yet there are some mothers who overlook a feverish condition, a little colic, or a disposition to be irritable. If not corrected they may lead to serious sickness. And to correct them, to bring Baby back to its happy self, is so easy by the use of Castoria—a medicine prepared just for infants and children. It will regulate the bowels (not force them), aid digestion and so bring quiet and rest.

HAS BRIGHT FUTURE

If Lloyd George does retire, keep your eye on Churchill. This son of

an American mother, only 48 and ablest of the younger men in Parliament, has been a war correspondent, a soldier and an author, and has served a long apprenticeship in every important cabinet post except

two. He is personally popular, and has the qualities of a conciliator so much needed in forming a coalition government.

BRITISH POLITICS IN BAD SHAPE

Much Speculation Concerning
Next Premier of Nation

LYDD GEORGE UNCERTAIN

Present Incumbent and Churchill
Now Best Bets

LONDON — (Special) — Chaos
marries the British political
situation. All gossip centers
about Lloyd George and these chief
questions:

When will a general election occur?

Who will win?

Who will be the next Premier?

Barred unforeseen circumstances

and Lloyd George—there will

probably be no general election un-

til the summer of 1923.

When it comes it is likely that a

coalition will again rule. Neither

the Conservative nor the Liberal

will have a clear majority, and

is not thought now—contrary to

recent belief—that the Labor party

will be swept into power, tho it is

expected to have from 200 to 250 mem-

bers in Parliament.

Premier possibilities are confined

to these men:

Conservatives: Lord Derby, Earl

Balfour, Bonar Law, Austen Cham-

berlain, Lord Birkenhead.

Coalition Liberals: Lloyd George,

Arthur Churchill.

Wee Free: Liberals: Viscount

Cray, H. H. Asquith.

Labor: Arthur Henderson.

A Labor government would be re-

garded as nothing short of a revo-

lution. The most Englishmen would

be in with the reins in the hands

of a man who is not in any

way of a Liberal. In the unlikely

event of Labor winning, Henderson

would be the certain choice for Pre-

mier.

SUPPORT IS SPLIT

The so-called "Wee Free" Liber-

are improbable, for their section

of the party is badly split between

followers of Grey and Asquith.

Among the Conservatives Balfour

and Lloyd George would be the most likely

choice. The acceptance of a peerage is

not likely, as it is sign that he never

will be able to lead a government

and that in the present Tory led

House of Commons much opposition within

the party. Lord Law would have

to be chosen because of his Ulster

connections. Birkenhead is appar-

ently the most brilliant future

choice. As Lord Derby, tho

senior, is too much of a

British politician and would suffer from

the Minister long in the House.

So the field is narrowed

and the choice is between

Lloyd George and Winston

Churchill. It is seen in Lloyd

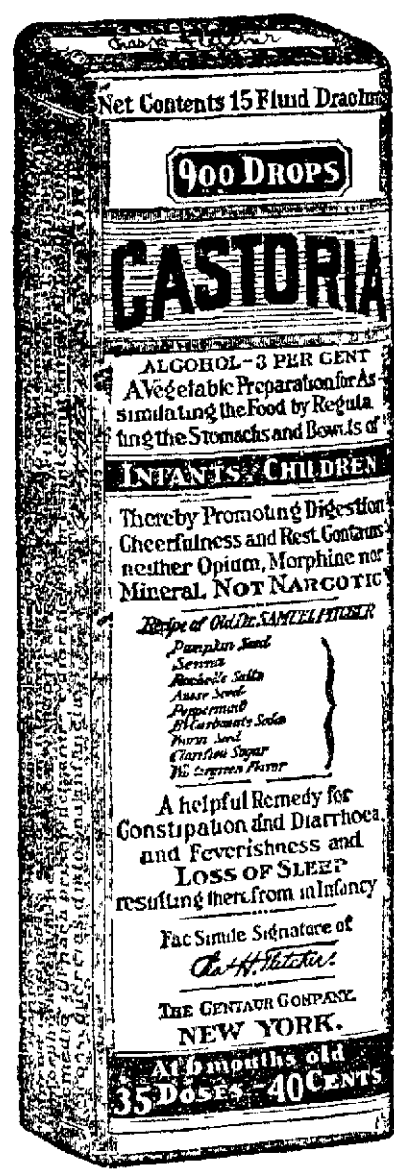

George's decision to write a \$700

SUSIE SMART'S ADVICE

Dear Miss Smart: I HAVE been going with a young man occasionally. In fact, he usually calls and invites me some place every week. I think so much of him. Several times he has not called for me for an entire week and I am certain that he has been out with other girls. I do not think that is right. Do you think I should continue to go with him when he goes with other girls?

YOU ridiculous girl! Why shouldn't you go with him? You are not engaged to him and it is his privilege to go with as many girls or as often as he cares. Vice versa, too, of course. You should accept the attentions of other young men as that is the only sensible thing to do.

Do not build up your hopes too much on this friendship. This young man may care for you only as a friend and if your friendship were to turn out differently from what you have hoped, you might feel the loss too deeply.

Dear Miss Smart: I know this letter will sound awfully "green" but please answer it for every question has troubled me greatly. (1) Just recently I met a young man at a party and have been with him twice since. He was very nice to me. Now he is going away and has asked me to write to him. I value his friendship very much and do not want to lose him. I want to do the proper thing. Please tell me if it would be all right to write him. (2) Will ratines and patent leather oxfords be worn this winter? (3) My chum has been going with a boy whom she likes, but does not care to go with him. Her can she quit going with him and end their friendship? (4) Don't you think it ill-mannered for a girl to tell a boy he needs his cheer shirt? (5) I don't approve of boys and girls kissing and hugging, but it seems this is the way they all do. I tell the boys I go with I don't like it but still they all try to make love. How can you make them understand that isn't what a girl enjoys and yet not hurt their feelings? Several of the boys I go with would make wonderful pals if it weren't for their faults.

(1) It would be perfectly proper for you to carry on a friendly correspondence with this young boy. Of course, you understand that he should be the first to write. (2) Ratines are more appropriate for summer and early fall wear. Oxfords will be worn some but the high heeled pumps are again coming their own for dress. (3) By tactfully and graciously declining his invitations. (4) Very. (5) If your boy friends are the right kind

Connie pressed her hand over the mouthpiece and turned to Fred, all the woman instinct in her steered against Hanna Fuller now, as when she saw her first. Why not see Fred at the Gypsy salesrooms during business hours? Why choose Fred anyhow? Why so pointedly abstain from asking his wife, too, for a neighborly call? Reluctantly she repeated the message to Fred. He rose at once, the salesman in him touched off with the "prospect."

"Tell her," he said eagerly, "I'll be right down."

Connie did not at once do so. It did seem as if Fred might have been willing to finish out with his wife their dinner hour. Dessert was not yet on the table—such a nice desert all fruit and whipped-cream and made with loving care.

"Mr. Dale will come down in about—10 minutes," she spoke into the telephone. "We're almost through with dinner."

Fred made as though to interrupt, but paused. He was getting a glimmering of understanding of Connie—the real Connie, underneath the pretty and gentle exterior.

"Gosh, Connie, Cunningham was right, all right! This house will pay the rent for us, you'll see."

Connie served the dessert without joining in Fred's enthusiasm. "It might let a woman have her husband at least for dinner," she protested. But she dabbed an extra spoonful of cream on Fred's plate which, boy-like, he scraped to the last fragment.

Then he pushed back his chair and jumped to the mirror for a final review of hair and tie.

"Be back soon as business is over, Ducky," he said, kissing Connie on both dimples.

"I wonder if that doesn't depend on what her business with you is," Connie murmured a little poutingly.

"Now don't get silly notions in your head! Bye—and kiss your old man as though you meant it!"

But he left Connie silent, standing by the window and staring out at nothing. Hurrying down the two flights, he rang the bell at the Fuller apartment. Hanna herself opened the door, a gorgeous human butterfly, the long floating sleeves of her georgette house gown giving

the effect of wings. She as Fred and shook his hand cooing "How nice of you to come."

Her three-room apartment cupied alone—the nest of a paradise. Silk hangings in tullest colors, soft lights taste ranged, divans and the glimmers. A quaint table inlaid with ivory and pearl stop a rosy lamp, proffering a pair of iridescent liqueur bottles tiny glasses. A faint perfume made the air delicate.

The New Frocks—

—There's an old world charm in the new frocks this year. Some of it is in the new long length, and much in the Spanish drappings. Some too is in the colorings which are all sombre and rich. Some of it may be attributed to the unusual styles of ornamentation—oriental designs—colorful on black—sequins in color and entire gowns of them.

—The crepe frocks are unusually popular this year—for street and all informal wear. They are so versatile because of their dark colorings and graceful designing.

—But tailored frocks hold their own. They come from well known tailleurs this Fall—including Printzess. As good for street and informal wear, too, as for business.
